

**NOTICE TO DESIGN BUILDERS
REQUEST FOR QUALIFICATIONS
WSDOT DESIGN-BUILD PROJECT**

October 22, 2012

Statement of Qualifications (SOQs) will be received in Room SA-19 of the Department of Transportation on the Service Level of the Transportation Building, 310 Maple Park Drive SE, Olympia, Washington 98504, or at PO Box 47360, Olympia, WA 98504 -7360, until 11 : 00 a.m. Pacific Standard Time, November 19, 2012. SOQs received after that time will be non-responsive and will be rejected. The right is reserved to reject any and all bids and to waive informalities in the bidding. To have your company added to the interested parties list please send your contact information to Kari Beardslee at Prequal@wsdot.wa.gov

STATEMENT OF QUALIFICATIONS

Project Name: SR 92 and I-90 Intersection Improvements & Regionwide Roadside Safety Project

Engineer's estimate: DB contract approx. \$8 million

Scope of work: This project is a combination of four locations where sections of the highway and the interstate system will be improved.

Location A

SR 92 / 99th Avenue NE - Roundabout MP 0.36 to 0.76

The project will construct a single-lane, four-legged roundabout to improve traffic flow on SR 92, reduce the potential of collisions and provide greater through-put for vehicles. The project will flatten the profile at the intersection to improve roundabout geometrics, replace the illumination system and signing, and provide treatment of stormwater runoff.

Location B

SR 92 / 113th Avenue NE - Roundabout MP 1.26 to 1.60

The project will construct a single-lane, three-legged roundabout to improve traffic flow on SR 92, reduce the potential of collisions and provide greater through-put for vehicles. The project will flatten the profile at the intersection to improve roundabout geometrics, replace the illumination system and signing and provide treatment of stormwater runoff.

Location C

Regionwide Redirectional Landforms - Roadside Safety

The project will install beam guardrail to protect the median bridge piers and reduce collision potential with fixed objects in the median of I-5 and SR 18 at the following locations:

- **I-5** at MP 182.13, MP 186.43, MP 210.31, MP 228.87, MP 236.39, MP 240.93, MP 246.24, MP 260.13 and MP 261.52.
- **SR 18** at MP 8.77.

Location D

I-90, West Lake Sammamish Parkway - Intersection Modification

The project will construct a two-lane modified teardrop roundabout (no travel through south leg) at the ramp terminal of I-90 westbound and West Lake Sammamish Parkway to reduce the risk of collisions at the intersection of West Lake Sammamish Parkway and the I-90 northbound ramp terminals. Improving the intersection at this location will address the unprotected left turn movements at this location. The project will replace the illumination system and signing. The roundabout will be constructed almost entirely on existing pavement.

SOQ due date, time, location, and addressee: All SOQs must be received by 11 a.m., Pacific Standard Time, on Monday, November 19, 2012 and must be delivered via US mail or hand or overnight courier to Greg Morehouse, WSDOT Manager Contract Ad and Award, 310 Maple Park Drive, SA-19, PO Box 47360, Olympia WA 98504-7360. **Facsimile or electronic transmission submissions will not be accepted.**

On October 22, 2012, an electronic version of the RFQ will be available on WSDOT's Contract Ad & Award Web site at: <http://www.wsdot.wa.gov/biz/contaa/>
